

North Green Snowdrops 2017

RARE SNOWDROPS FOR SALE BY TENDER

We have a few rare snowdrops for sale. In order to give all our customers an opportunity to acquire these bulbs we are once again, selling them by tender. Customers are invited to submit a bid for a single bulb of one or more of the thirteen varieties on the yellow bidding form enclosed. **The reserve price shown in the catalogue is the lowest price at which we will sell any of the above snowdrops.** Please note, in most cases there are only five, or even less, bulbs of a particular variety for sale. Should there be more than one bid of an equal amount, and only one bulb remaining, we shall accept the first bid opened.

Please put your bid or bids in a sealed envelope and mark the front with the name(s) of the bulb(s). In previous years, many customers have been very disappointed but it would appear that this is the fairest method we can devise to give all our customers an equal chance of acquiring these rarities.

No bids will be accepted after 12 noon on 20th February 2017.

Customers wishing to participate please note that bids, which must be made in pounds sterling, can only be accepted if payment is made by credit/debit card and no other form of payment. Any snowdrops acquired through this new venture will be separately dispatched and the whole transaction treated separately from any other order you may have placed.

As we cannot combine these snowdrops with your main order, there is a £4.50 flat rate postage and packing charge, which includes Europe.

Amount of tender in whole pounds only
